

Debbie Vanegas, NEH Integrating Archaeology into K-12 Education Project 2005

Interpreting Art and Archaeology Lesson Plan: Jigsaw Insert

<p>In summary, so points to remember are:</p> <p>Archaeologists use a variety of methods to interpret the human behavior in the past and present.</p> <p>It is illegal to dig on Federal, State, County, & Native American land.</p> <p>Archaeologists have to obtain a permit to survey and excavate land and in order to start any investigation the scientist must have a justification (reason for doing the study) and a research design.</p>	<p>How can I get involved?</p> <p>Some places host public programs where they allow to the public to participate in archaeology with qualified archaeologists (for example, MNCPPC-MC) and Colleges & universities get students involved.</p> <p>You may also participate by helping to report finds to the Maryland Historical Trust (MHT) (see information below), joining local avocational groups such as: the Archaeological Society of Maryland (ASM) or read the latest news on the Council for Maryland Archeology (CfMA) webpage and MHT websites.</p>
<p>To report a find contact the MHT:</p> <p>Dr. Susan Langly, State Underwater Archeologist or Dr. Charlie Hall, State Terrestrial Archeologist</p> <p>http://www.marylandhistoricaltrust.net/</p> <p>or</p> <p>Tara L. Tetrault, Montgomery College http://www.montgomerycollege.edu/departments/neharchaeology</p>
