

## Key to Pelvis

---

1. Kidney
  - a) Cortex
  - b) Medulla
  - c) Renal pelvis
  - d) Renal calyx
  - e) Renal papilla
2. Renal vein
3. Inferior vena cava
4. Renal artery
5. Abdominal aorta
6. Ureter
7. Urinary bladder (male or female)
  - a) Apex
  - b) Base
  - c) Corpus
  - d) Ostium of ureters
  - e) Trigone of the bladder
8. Urethra (male or female)
9. Prostate gland (male)
10. Adrenal gland
11. Uterus (female)
12. Coeliac trunk
13. Common hepatic artery
14. Renal artery
15. Sup. mesenteric artery
16. Inf. mesenteric artery
17. Testicular/ovarian artery
18. Left testicular/ovarian vein
19. Common iliac artery
20. External iliac artery
21. Internal iliac artery
22. Transverse abdominal muscle
23. Quadratus muscle
24. Iliacus muscle
25. Psoas major muscle
26. Anterosuperior iliac spine
27. Symphysis of pubis

## Key to Thorax

---

- (A) Larynx
  1. Hyoid bone
  2. Thyroid cartilage
  3. Cricoid cartilage
  4. Epiglottis
  5. Corniculate cartilage
- (B) Thyroid Gland
- (C) Trachea
  6. Right tracheal branch
  7. Left tracheal branch
  8. Bifurcatio trachea
  9. Crico-tracheal ligament
- (D) Esophagus
  10. Aorta
- (E) Lungs:
  - Right Lung
    11. Superior lobe
    12. Middle lobe
    13. Inferior lobe
  - Left Lung
    14. Superior lobe
    15. Inferior lobe
- (F) Heart
  16. Right atrium
  17. Left atrium
  18. Right auricular appendage
  19. Left auricular appendage
  20. Right ventricle
  21. Left ventricle
  22. Superior vena cava
  23. Inferior vena cava
  24. Pulmonary artery
  25. Tricuspid valve
  26. Pulmonary semilunar valve
  27. Pulmonary veins
  28. Bicuspid valve
  29. Aortic semilunar valves
  30. Right coronary artery
  31. Left coronary artery
  32. Common carotid artery
  33. Internal jugular vein
- (G) Diaphragm
