

### Key to Female Pelvis:

---

1. Pubic bone
2. Sacral vertebrae
3. Coccygeal vertebrae
4. Labium majorum
5. Labium minorum
6. Clitoris
7. Urethra
8. Urinary bladder
9. Ureter
10. Vagina
11. Uterus
  - a. serosa
  - b. myometrium
  - c. endometrium
12. Cervix
13. Os
14. a. Fallopian tube
  - b. Fimbriae
15. Ovary
16. Ovarian ligament
17. Round ligament
18. Rectum
19. External anal sphincter
20. Common iliac artery
21. Common iliac vein
22. External iliac artery
23. External iliac vein
24. Internal iliac artery
25. Internal iliac vein
26. Parietal peritoneum

### Key to Male Pelvis:

---

1. Pubic bone
2. Sacrum
3. Coccyx
4. Urinary bladder
  - a. Apex
  - b. Urinary fundus
  - c. Muscular layer
  - d. Mucosa
  - e. Ureteral orifice
  - f. Trigone
5. Prostate
6. a. Ejaculatory Duct
  - b. Prostatic urethra
7. Seminal vesicles
8. Spermatic duct
9. Ureter
10. Corpus spongiosum
11. Penis
12. Glans (head of penis)
13. External urethral orifice
  - a. Cavernous urethra
14. a. Corpus cavernosum
  - b. Corpus cavernosum
15. Testis
  - a. Tunica vaginalis
  - b. Scrotum
16. Epididymis
  - a. Head of epididymis
17. Pampiniform plexus
18. Testicular artery
19. Spermatic cord
20. Rectum
21. Common iliac artery
22. Common iliac vein
23. Parietal peritoneum
24. Inguinal ligament
25. Pectineal part of the inguinal ligament
26. Inguinal canal
27. Lacuna vasorum
28. Interfoveolar ligament
