“ Our members say it best:

"My husband wanted to adopt my daughter but the cost was extremely high. Legal Resources was able to handle the adoption without us having to take out a personal loan to pay for it. When we got the finalized papers, my husband actually cried because he finally had rights to his little girl." - **Christine P.**

"We had our Legal Resource attorney draw up our will, financial power of attorney and advanced directives. My husband was diagnosed with terminal brain cancer shortly after. I am so thankful that this had been done. He passed away and I again contacted my attorney for advice moving forward. Peace of mind is priceless at times like this." -**Mary B.**

"In both cases of divorce and traffic it was extremely helpful and saved over 10,000 dollars!" - **Albert R.**

"I was able to use Legal Resources to finalize the sale of my rental property as well as my refinance of my primary residence. Extremely helpful!" - **Corey M.**

"The legal resource plan has helped me and a family member, my situation was concerning a debt that my lawyer helped get reduced by more than 50%" - **Dennis B.**

"I have found the resource very valuable. I have used it for buying and selling a home. I have also used it for a prenup and later in an uncontested divorce. I have also used it for my will and advanced directives. I have worked with several different attorneys and firms for the various services and all were great to work with." - **Linda M.**
