SABBATICAL LEAVE (Faculty Members)

Key factors that contribute to student success are the competence and performance of the faculty who work so closely with them. To provide Montgomery College students with a quality education in a learning environment, the faculty must not only possess knowledge and skills current to its discipline and profession, the members must also prepare for the future.

Sabbatical leave provides full-time faculty members the opportunity to take time away from the classroom to engage in various types of professional development endeavors. Through the sabbatical activities, Montgomery College faculty members are able to enhance and diversify their knowledge, skills and competencies, study and explore the latest trends and best practices in their area of expertise, and most importantly, apply them in their classrooms and share these gifts with their students.
