

Overview

This job aid will provide instructions on creating a hardware request and looking up its status. The approval process is as follows:

Create Hardware Request

1. Log into Workday.
2. In the search bar, type **Create Request** and enter. Select the Create Request Task.
3. For the request type, select **All** and then click **Hardware**.

4. Next, answer all the questions and attach any documentation associated with this request (quotes, brochure, etc.). **Note:** An attachment is not required.
5. If you are ready to submit your request, click **Submit**. If not, click **Save for Later** to save or **Cancel** if you want to delete the request.

6. After submitting your request, you will receive a pop-up confirmation that it was submitted.

Check the Status of Hardware Requests

1. In the search bar, type **My Requests** and enter. Select the **My Requests Report**.
2. The My Requests screen appears with a listing of all your requests.
3. Go to the hardware request. In the Request column click the related actions button (three dots) and then click **Business Process**.

4. The View Event page will appear which lists the details of each step in the process and the overall status of the request.
