

EAP Direct Payments: Create Supplier Invoice Request

Workday Job Aid for Employees

Overview

This job aid explains how to submit a direct payment to a Supplier using the Education Assistance Program (EAP) budget, and how to view your Supplier Invoice Request to make changes in Workday. An EAP Supplier Invoice Request is used to process a payment directly from Montgomery College to external institutions and/or organizations for the purpose of professional development.

All EAP expenses must be in accordance with [College Policy 35001, Compensation Programs \(XIX, A\)](#) (PDF, ) and requires corresponding documentation to be attached. EAP requests will be processed upon final approval by the manager/supervisor of the requestor, the EAP Partner (HRSTM), and Accounts Payable (OBS). If you have any questions regarding EAP, please contact EAPRequests@montgomerycollege.edu.

If you have any questions related to the status of payment, please contact Accounts Payable at AccountsPayable@montgomerycollege.edu.

Important

If the Supplier required for a direct payment is not listed in the system, you must first complete the [Create Supplier Request](#) business process in Workday prior to submitting a Supplier Invoice Request.

For assistance with creating a Supplier, view the [Create Supplier Request Job Aid](#) or view the [Create a Supplier Demo Video](#). If you have any questions about adding a Supplier to Workday, please contact the Procurement Office at Procure@montgomerycollege.edu.
