SECTION 2 – BACKGROUND AND SCOPE OF SERVICES

2.1 Background

Montgomery College’s Office of Grants and Sponsored Programs (OGSP) frequently submits grant proposals to a variety of federal, state, and local agencies. Grant awards from federal agencies include, but are not limited to, the National Science Foundation (NSF), U.S. Department of Labor (DOL), U.S. Department of Education (ED), and the National Endowment for the Humanities (NEH). Some grant proposals require an evaluation section outlining how an external evaluator will provide the evaluation for specific project deliverables and services. **This RFB concerns the DOL ETA Strengthening Community Colleges Training grant.**

The Office of Grants and Sponsored Programs is seeking the qualifications from evaluators to serve as the project evaluator post-award for a \$1.6 million DOL ETA Strengthening Community Colleges Training grant entitled Tech Metro Area Pathways (TechMAP). This project will support 1,000 students underrepresented in Information Technology (IT) fields over a four year funding period (October 1, 2022 through September 30, 2026). The purpose of the project is to improve the retention and completion of students underrepresented in IT fields by developing a scalable Navigator model, which helps students to understand career options and enroll in the best program of study for them, to connect them to wrap around services within the College and in the community, and to monitor their progress so early intervention is possible when red flags are identified. This system is expected to improve outcomes, credentials earned, and the proportion of participants who find quality jobs.

2.2 Objectives

- Develop an implementation evaluation design.
- Prepare the Institutional Review Board (IRB) application.
- Conduct the project evaluation to assess if/how the program was implemented as intended.
- Prepare interim and final reports required by DOL.

2.3 Scope of Services

The external evaluator will develop an evaluation design (draft due June 30, 2023 and final due September 30, 2023) and implement a study to include the following major components: 1.) Introduction & Background; 2.) Logic Model; 3.) Evaluation Objective & Type/Approach; 4.) Evaluation Questions; 5.) Study Design; 6.) Data Measures, Sources, & Collection Plan; and 7.) Analysis Plan. The project evaluator also will prepare IRB applications, annual evaluation reports, and a final report that will be submitted to the DOL as part of the required project reports.

An implementation evaluation design will be required. For the implementation evaluation, data will be used to assess if/how the program was implemented as intended. The evaluator will collect data on quality, quantity, content, and structure of activities. The performance outcome measures will be pre-determined and negotiated with the DOL. Developmental approaches to evaluation, that use data for real-time feedback to inform program design and development, may be used to provide the team with feedback and prepare interim reports; this may potentially lead to program innovations and adaptations.

Further, should there be any dispute/discrepancy on acceptability of said service, decisions made by the College will prevail and be final.

AWARD CONSIDERATIONS Awards of this bid will be made to the lowest responsible Bidder conforming to specifications with consideration being given to quantities involved, time required for delivery, purpose for which required, responsibility of bidder and its ability to perform satisfactorily with consideration to any previous performance for Montgomery College. Bidder agrees that it will provide any justification as to why any material, in whole or in part, is deemed to be confidential, proprietary information or trade secrets and provide any justification of why such materials should not be disclosed pursuant to the Maryland Public Information Act.

MINORITY PARTICIPATION Pursuant to Board Resolution #87-83, adopted on July 20, 1987, it is the policy of Montgomery College to encourage minority businesses to provide goods and services for the performance of College projects. Minority businesses are defined as firms that are 51% owned and controlled by a member of a socially or economically disadvantaged minority group, which includes African Americans, Hispanics, Native Americans, Alaskan Natives, Asians, Pacific Islanders, women, and the mentally or physically disabled.

NON-ASSIGNMENT AND SUBCONTRACTING Bidder shall not assign any contract or any rights or obligations hereunder without obtaining prior written consent of the College. No contract shall be made by Bidder with any other party for furnishing the services to be performed under a contract issued from this solicitation without the written approval of the College. These provisions will not be taken as requiring the approval of the contract of employment between Bidder and its personnel.

NON-COLLUSION Bidder certifies that it has neither agreed, conspired, connived, or colluded to produce a deceptive show of competition in the compilation of the bid or offer being submitted herewith; Bidder also certifies that it has not in any manner, directly or indirectly, entered into any agreement, participated in any collusion to fix the bid price or price proposal of the Bidder or offeror herein or any competitor, or otherwise taken any action in restraint of free competitive bidding in connection with the contract for which the bid or offer is submitted.

NON-DISCRIMINATION Bidder assures the College that, in accordance with applicable law, it does not, and agrees that it will not discriminate in any manner on the basis of sex, race, age, color, creed, national origin, religious belief, handicap, marital status, or status as a disabled veteran or veteran of the Vietnam era. Bidder further agrees to post in conspicuous places notices setting forth the provisions of the nondiscrimination clause and to take affirmative action to implement the provisions of this section. Bidder further assures the College that, in accordance with the Immigration Reform and Control Act of 1986, it does not and will not discriminate against an individual with respect to hiring, or recruitment or referral for a fee, of the individual for employment or the discharging of the individual from employment because of such individual's national origin or in the case of a citizen or intending citizen, because of such individual's citizenship status.

NON-DISCRIMINATION POLICY The College is committed to providing a work and study environment that is free from discrimination and harassment on the basis of race, color, religious creed, ancestry, national origin, age, sex, marital status, handicap, pregnancy or status as a disabled veteran or veteran of the Vietnam era. Behavior contrary to this philosophy, which has the purpose or effect of creating an intimidating, hostile, or offensive environment, will not be tolerated by the College, and it is the Contractor's responsibility to ensure that behavior by its employees, agents, and subcontractors does not occur. This policy extends to maintaining an environment free from sexual harassment. Therefore, sexual advances or sexual remarks, requests for sexual favors, and other verbal or physical conduct of a sexual nature must not be condoned or permitted by the Contractor. This prohibition extends to harassment within the employment context as well as harassment of students, staff and visitors to the College. It should be assumed that all sexual behavior by the Contractor's employees, agents and subcontractors on any campus or facility of the College, whether owned, operated, maintained or leased by the College, is improper and unwelcome. Contractor will also insure that all technicians who work with College users exhibit a high degree of professionalism in their dealings with those users.

NON-VISUAL ACCESS The bidder or offeror warrants that the information technology offered under this bid or proposal (1) provides equivalent access for effective use by both visual and nonvisual means; (2) will present information, including prompts used for interactive communications, in formats intended for both visual and nonvisual use; (3) if intended for use in a network, can be integrated into networks for obtaining, retrieving, and disseminating information used by individuals who are not blind or visually impaired; and (4) is available, whenever possible, without modification for compatibility with software and hardware for nonvisual access. The bidder or offeror further warrants that the cost, if any, of modifying the information technology for compatibility with software and hardware used for nonvisual access will not increase the cost of the information technology by more than 5 percent. For purposes of the regulation, the phrase "equivalent access" means the ability to receive, use, and manipulate information and operate controls necessary to access and use information technology by nonvisual means. Examples of equivalent access include keyboard controls used for input and synthesized speech, Braille, or other audible or tactile means used for output."
